SPS Technology Talks

02 SPS TECHNOLOGY TALKS

Development cycles in the automation industry are becoming increasingly shorter. With the SPS Technology Talks, companies have the opportunity to position current industry topics independently of the trade fair schedule. In this interactive webinar format, you can present technologies, trends, application scenarios, and solutions while engaging in live discussions with participants. You benefit from media coverage before and after the digital event to ensure maximum visibility.

Please note: The keynote speech will be held in German.

Your benefits at a glance

- Professional event moderation, including a Q&A session
- Neutral and independent opening keynote
- Target group-specific invitation management
- Editorial content preparation and follow-up of content as part of the monthly SPS expert newsletter
- Recording of content and professional video editing
- On-demand availability of video contributions for up to 8 weeks after the webinar in »SPS Insights« section
- Social media promotion of the Technology Talks
- Reporting, including registered participants

Key Facts und Preise

- Monthly webinar with an average of 74 participants*
- High relevance and timeliness thanks to a focus on target-specific topics
- Neutral keynote and up to 3 provider sessions
- 20-minute session including a Q&A
- Participation possible live in the studio in Stuttgart or remotely via Zoom

Price per provider session: €3,850**

Bundle price when booking 2 provider sessions on different topics: €7,000**

* Participant numbers may vary depending on the webinar topic and month

** Presentation slot in the webinar + comprehensive media services before and after the webinar

Further information on the target group and reach can be found on [pages 4 and 5](#)

Communication Services

WHAT OUR CUSTOMERS SAY

» The decision to use mesago's Industry News package to promote our ctrlX AUTOMATION product innovations ahead of SPS proved to be a success for Bosch Rexroth. Our messages were communicated directly to the trade fair audience. [...] It allowed us to spark interest and curiosity ahead of the event, which led to an increased number of visitors at our booth. «

Steffen Winkler, CSO Business Unit Automation, Bosch Rexroth AG

» With the Industry News, we were able to reach a large professional audience for our cyber security campaign and effectively spread our message. [...] The newsletter feature and social media posts helped us further expand our reach.[...] The transparent performance analysis afterwards [...] gave us valuable insights into the effectiveness of our campaign.

Many thanks to the mesago team for this great opportunity to showcase our brand and connect with our audience! «

Phoenix Contact GmbH & Co. KG

03 COMMUNICATION SERVICES

With the SPS Communication Services, you have the opportunity to reach the SPS community directly via online advertorials and video advertisements in the »SPS Industry News« section or via stand-alone e-mail campaigns. Whether it's company news, product presentations, or expert interviews – you define the content, and we take care of everything else.

Online advertorial

Publish your professional article as an online advertorial in the »SPS Industry News« section on the SPS website, in German or English. The content will also be promoted through a social media post and featured in the SPS expert newsletter, reaching an address pool of currently 50,000 German-speaking recipients.

Key facts

- Continuous text with a maximum of 1,500 words in German or English
- Integration von Bildern und Weblinks möglich
- Thematic assignment to a topic area according to the SPS product groups
- 6-month online presence of your article

Your benefits at a glance

Online advertorial

- Target group communication without wastage
- Placement of your content within the SPS communication channels
- Presentation of your article without third-party advertising
- Enhanced credibility among readers through editorial-style design
- High visibility through search engines and immunity to ad blockers
- Multi-channel presence via promotion on social media and in the SPS expert newsletter

Prices

- | | |
|-----------------------------------|--------|
| ■ 1 advertorial as a text article | €3,795 |
| ■ 2 advertorials as text articles | €4,785 |

Further information on the target group and reach can be found on [pages 4 and 5](#).

to book

Video Advertisement

Present your message as a video ad in the SPS Industry News section on the SPS website – in German or English.

Your video will be prominently featured in the news portal and remain online for six months. In addition, your video will be promoted by a teaser in the SPS Expert Newsletter and by a supporting social media post on the SPS channels. This allows you to reach a targeted audience from the automation industry and increase your visibility.

Key facts

- 6-month online presence for your video message
- Presentation in German or English
- Thematic assignment to a topic area according to the SPS product groups

Your benefits at a glance

Video Advertisement

- Place your own video message within the SPS communication channels
- Precise targeting of defined professional audiences with minimal wastage
- High credibility through embedding in an editorial environment
- Movement, sound, and storytelling create a stronger emotional impact – ideal for brand building and image enhancement
- Multi-sensory engagement through the combination of visuals, audio, and text
- Multi-channel presence via promotion on social media and in the SPS Expert Newsletter

Prices

- | | |
|------------------------|--------|
| ■ 1 video advertorial | €3,795 |
| ■ 2 video advertorials | €4,785 |

Further information on the target group and reach can be found on [pages 4 and 5](#).

05

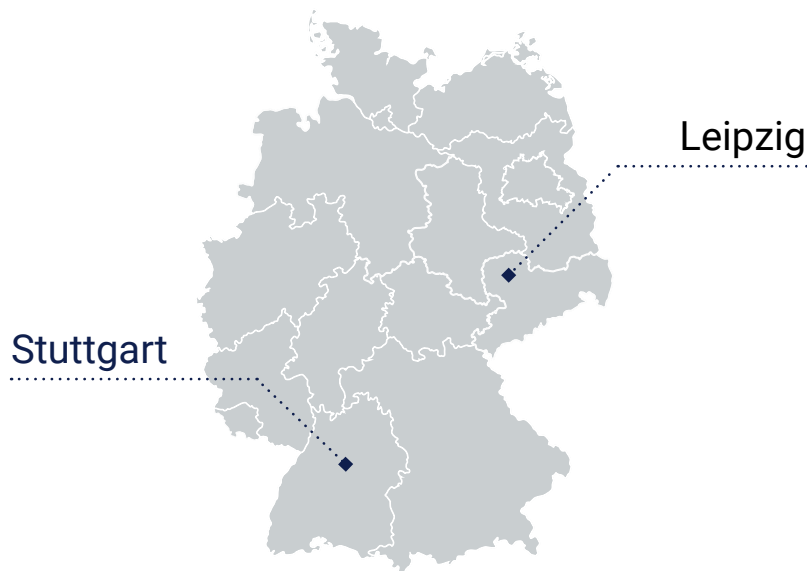

Industrial Technology Summit

05 INDUSTRIAL TECHNOLOGY SUMMIT

The SPS Industrial Technology Summit is a platform for industry experts to experience and discuss technological advancements in automation driven by artificial intelligence. The focus is on hands-on workshops, networking, and exchanging ideas about pioneering technologies that make processes more efficient, secure, and more sustainable. In addition to the exchange of knowledge, the event aims to foster networking among participants and provide opportunities to develop new perspectives and projects together.

Two locations, one goal – bringing thought leaders together.

Stuttgart, 19 May 2026: AI & Machine Learning

For decades, Stuttgart has been considered as the heart of German industry and a driving force for innovation in automation. Here, traditional engineering expertise, leading research institutions, and a dense network of high-tech companies are closely interconnected. The region is home to internationally renowned mechanical engineering and automotive companies that set new standards through continuous investments in automation technologies. Whether robotics, connected production systems, or the integration of artificial intelligence into manufacturing processes – Stuttgart combines practice and research at the highest level.

Leipzig, 17 June 2026: AI & Robotics

Leipzig has evolved into a dynamic business hub in recent years. With its strong industrial base and growing focus on digital technologies, the city plays a key role in automation and intelligent production. The automotive and supplier industries, in particular, shape Leipzig's profile: modern manufacturing facilities, high levels of automation, and investments in smart production processes make the region a pioneer in connected industry.

Further
information

Industrial Technology Summit 2026

- **Target audience:** Engineers and technical decision-makers from various industrial sectors
- **Each event offers 1.5 days of conference sessions combined with interactive networking formats, featuring high-profile keynotes, inspiring impulse talks, deep-dive sessions, moderated panel discussions, and matchmaking opportunities.**
- **Goal:** Connecting users and providers of automation
- **Powered by SPS and Computer&Automation**

Focus: AI & Machine Learning in Stuttgart

Key Facts

- **Date:** 19 May 2026 (Pre-Event: 18 May 2026)
- **Location:** Stuttgart, Design Office Tower

Please note: it is a German-language event

Focus: AI & Robotics in Leipzig

Key Facts

- **Date:** 17 June 2026 (Pre-Event: 16 June 2026)
- **Location:** Leipzig, Design Office Post

Please note: it is a German-language event

Topics

- Industrial applications of artificial intelligence
- Process optimization with AI
- Advances in machine learning for manufacturing
- Automation, robotics, and smart factories
- Data analytics and predictive maintenance
- Data security in AI applications
- Ethics: Fears and concerns surrounding AI
- Legal frameworks and regulations
- Human-machine interaction
- Using AI to promote sustainability

Participation opportunities at a glance

■ Topic table host (max. 5 per location)	€4,500*
■ Table-top exhibitor (max. 10 per location)	€2,900*
■ Table-top exhibitor – Start-up special (max. 5 per location)	€1,450*
■ Gold sponsor (max. 1 per location)	€8,900*
■ Silver sponsor (max. 3 per location)	€4,900*

Further information

* Price per event/location:
When booking the same service for both locations,
you will receive a 30% discount on the second event.

Participation opportunities

05 PARTICIPATION OPPORTUNITIES

Become a host of a topic table

The Industrial Technology Summit promotes interactive and in-depth knowledge exchange between providers and users through topic tables focused on different key areas. Take this opportunity to position yourself as 1 of up to 5 topic leaders. Feel free to reach out to us!

Key Facts

- Kick-off impulse talk to start the exclusive discussion round
- Moderation of the topic table as a host
- 60-minute dialogue and interaction with participants
- Support with topic-specific questions in the context of the event from the editorial team of Computer&Automation and the SPS Price: € 4,500

Focus topics, for example:

- | | |
|------------------------------------|--------------------------|
| ■ AI and smart manufacturing | ■ AI and regulation |
| ■ AI and security | ■ AI and maintenance |
| ■ AI and sustainable production | ■ AI and robotic control |
| ■ AI and human-machine interaction | ■ Cognitive robotic |

Included services

Before the event

- Listing in the program guide
- Company presentation including logo on the event website
- Social media promotion on the SPS channels
- 1 online advertorial in the »SPS Industry News« section

On-site

- 2 free tickets for your staff including catering
- 25% discount on additional tickets for staff or partners

After the event

- Access to participant data
- Post-event report

Media services by Computer&Automation

- ½-page product ad in the AI May special
- 1 online advertorial including company presentation on **computer-automation.de**
- Editorial reporting
- Social media promotion
- 20% discount on one ad or online campaign within the channels**

Further information

* the listed focus topics represent broad thematic areas and may vary depending on the specific emphasis of each event. The exact title of each topic table will be defined in close coordination with you.

** applies to advertisements during the period May – August 2026

Become an exhibitor

Present your innovations at the Industrial Technology Summit!

The Industrial Technology Summit offers companies and start-ups the opportunity to present themselves at the congress with a table-top stand.

Take advantage of this opportunity to present your products, developments, and innovations related to artificial intelligence and machine learning or artificial intelligence and robotics to a high-level professional audience. All presentation packages include your own exhibition space with technical equipment, congress tickets for access to the latest information and trends, and valuable networking opportunities with industry experts, decision-makers, and innovators.

For start-ups*, we offer a specially discounted presentation package that not only provides networking opportunities within the industry, but also access to valuable expertise on AI, machine learning, and robotics.

Secure your spot now and become part of the future of industrial technologies!

Included services

Before the event

- Listing in the program guide with logo and contact details

On-site

- 6 sqm presentation area including a table, 2 chairs, power connection, and Wi-Fi
- 1 or 2 free tickets for your staff, including catering
- 25% discount on additional tickets for staff or partners

Prices

- Table-top exhibitor (max. 10 per location) €2,900
- Start-up special (max. 5 per location) €1,450

Further information

* Companies that are no more than 5 years old and have an annual turnover of no more than 10 million euros.
